

Automated Auto Parts Production Line for Automotive Dampers Assembly And Testing

Our Product Introduction

for more products please visit us on automation-assembly.com

Basic Information

- Place of Origin: Shanghai
- Brand Name: Quanstar
- Certification: ISO
- Packaging Details: wooden box
- Payment Terms: L/C,T/T

Product Specification

- Name: Dampers Assembly Line
- Industry: Automotive Supply
- Project: FSD
- Application Products: Damper Shock Absorber
- Operation: Fully Automatic
- Control System: PLC
- Highlight: **Dampers Auto Parts Production Line,
Automotive Dampers Testing Automated
Production Line**
,
**Automotive Dampers Assembly Production
Line**

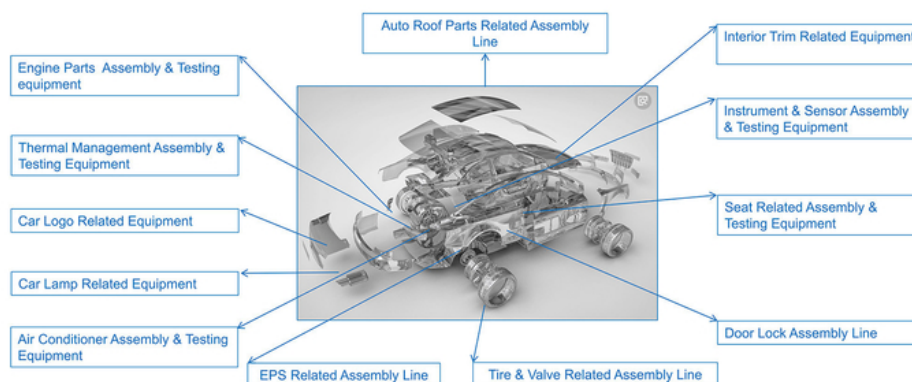

Product Description

Automotive dampers assembly and testing line custom automation solution

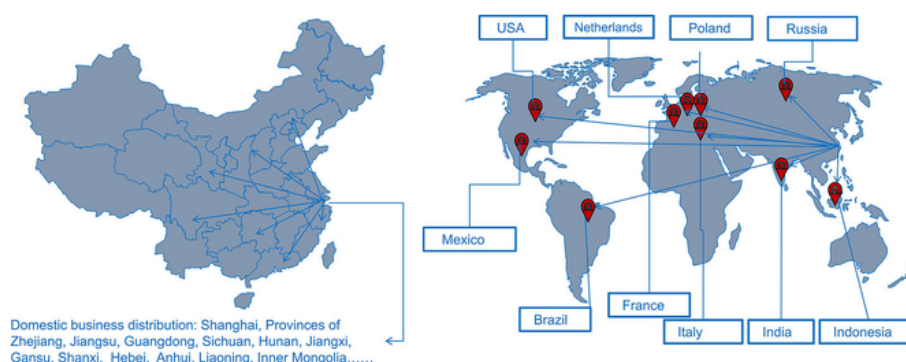

The assembly line is divided into modules that can be easily reconfigured and thus change the sequence of assembly stages.

| | |
|-------------|--|
| Industry | automotive |
| Project | FSD damper production line |
| Description | line for complete damper assembly development of complete load test output of final dampers qualification test final traceability stickers. |
| Process | component assembly development of measurement and control equipment for oil filling systems development of measurement and control equipment for gas charging system handling of components with servo motor development of in-house application for final performance load test production control quality and standard traceability assurance final product packaging |

Business Global Service

We are committed to providing customers with high-quality, competitive products and services. A project cooperation process usually includes the following key steps.

FAQ

1.Q: Are you trading company or manufacturer?

A: We are a manufacturer with over 10 years of production and development experience.

2.Q: What are your major products?

A: We are an assembly automation solution provider specialized in customized automatic machinery for production. For example, we provide customized assembly line, testing and packaging solutions to several electric vehicle (EV) manufacturers, such as component-level lines for battery packs, thermal management systems, steerings and so on.

3. Q: How long is your delivery time?

A: Usually 3 months is a production cycle, the specific delivery date should be arranged according to the product's complexity and real-time production schedule. Please contact us for the latest delivery date.

4.Q: How about your price?

A: Show us your parts and we will be glad to find solutions and provide a suitable scheme, and offer the most competitive price to you.

5.Q: What is your terms of payment ?

A: 40% deposit and 60% balance payment before delivery.

6.Q: What is the package for you machine?

A: We have standard wooden case package.

7.Q: How long is the warranty?

A: Our aftersale service is one year free warranty, and life-time maintenance guaranteed.

8.Q:What partners do you work with?

A: We can both work with customer's designated partners and propose other components partners at customer's request. Some of our technical partners as below:
