

Air Suspension Auto Parts Production Line Fully Automatic

Our Product Introduction

Basic Information

- Place of Origin: Shanghai
- Brand Name: Quanstar
- Certification: ISO
- Packaging Details: wooden box
- Payment Terms: L/C,T/T

Product Specification

- Name: Air Suspension Assembly Inspection Production Line
- Application: Automotive Manufacturing
- Condition: New
- Type: Fully Automatic
- Control System: PLC
- Power Supply: 380V/220V
- Highlight: **Air Suspension Auto Parts Production Line,
Auto Air Suspension Assembly Inspection Line,
Auto Air Suspension Automation Production Line**

for more products please visit us on automation-assembly.com

Product Description

Air suspension assembly inspection production line automotive automation line

Function	automatic assembly and testing line
Compatibility	compatible with different specifications

Manipulator: Manipulators are widely used in the assembly area for the transportation and assembly of parts. Manipulators have the characteristics of high precision, high speed and high reliability, which can greatly improve production efficiency and assembly quality.

Automated detection equipment: Advanced automated detection equipment such as pressure sensors and displacement sensors are used to detect the performance of air suspensions in real time. Detection data is automatically uploaded to the production management system for quality tracing and analysis.

AGV: Use AGVs for material handling to reduce labor intensity and improve logistics efficiency. AGVs can automatically drive according to preset paths and tasks and accurately transport parts to various workstations.

Automotive component solution

Chassis system
Electronics components
Decoration
Safety system

We focus on the R&D, manufacturing, and services of non-standard automatic assembly machine and automated production equipment, visual positioning and inspection, packaging, and industrial multi-axis robots.

Whatever product you manufacture, we have the expertise to create a customized, automated solution that fits your needs. Our experienced engineers work with you to design and implement automation to assemble, visual inspection inspect, or labelling, package your product.

Quanstar Intelligent Controls (Shanghai) Co.,Ltd. specialized in creating custom automation solutions tailored to each client's need. We have a high reputation for providing custom automated manufacturing, processing, assembling and packing solutions for all industries including:

- Automotive
- Electric vehicle (EV)
- Medical
- Healthcare
- Industrial
- Cosmetics
- Commodities

Core competencies of our manufacturing automation solutions:

- Resistance and laser welding
- Ultrasonic and RF Welding
- Industrial robot integration for flexible, multi-axis problems
- Material handling
- Power & free linear transfer systems
- Servo press
- Vision inspection
- Build to print
- Precision machining
- Lean cells
- Leak testing
- Traceability

We are committed to providing customers with high-quality, competitive products and services. A project cooperation process usually includes the following key steps.

FAQ

1.Q: Are you trading company or manufacturer?

A: We are a manufacturer with over 10 years of production and development experience.

2.Q: What are your major products?

A: We are an assembly automation solution provider specialized in customized automatic machinery for production. For example, we provide customized assembly line, testing and packaging solutions to several electric vehicle (EV) manufacturers, such as component-level lines for battery packs, thermal management systems, steerings and so on.

3. Q: How long is your delivery time?

A: Usually 3 months is a production cycle, the specific delivery date should be arranged according to the product's complexity and real-time production schedule. Please contact us for the latest delivery date.

4.Q: How about your price?

A: Show us your parts and we will be glad to find solutions and provide a suitable scheme, and offer the most competitive price to you.

5.Q: What is your terms of payment ?

A: 40% deposit and 60% balance payment before delivery.

6.Q: What is the package for you machine?

A: We have standard wooden case package.

7.Q: How long is the warranty?

A: Our aftersale service is one year free warranty, and life-time maintenance guaranteed.

8.Q:What partners do you work with?

A: We can both work with customer's designated partners and propose other components partners at customer's request. Some of our technical partners as below:
