

Custom Cosmetics Automation Assembly Machine For Lip Gloss Applicator

Our Product Introduction

Basic Information

- Place of Origin: Shanghai
- Brand Name: Quanstar
- Certification: ISO
- Packaging Details: wooden box
- Payment Terms: L/C,T/T

Product Specification

- Name: Semi Automatic Lip Gloss Applicator Assembly Machine
- Power Supply: AC380V 50/60Hz
- Industry: Cosmetics
- Control System: PLC
- Solution: Custom Automation
- Operation: Semi Automatic
- Highlight: **Lip Gloss Applicator Automation Assembly Machine**
, Custom Automation Assembly Machine,
Cosmetics Automation Assembly Machine

Product Description

Custom Cosmetics Automation Assembly Machine For Lip Gloss Applicator

Product Specifications

Attribute	Value
Name	Semi automatic lip gloss applicator assembly machine
Power supply	AC380V 50/60Hz
Industry	Cosmetics
Control system	PLC
Solution	Custom automation
Operation	Semi automatic

Precision Assembly Solution for Cosmetics Industry

Our lip gloss applicator assembly machine represents custom automation at its finest, designed specifically for cosmetics manufacturing. We specialize in precision assembly machines, robotics, and mechatronics solutions tailored to your exact requirements.

Key Features:

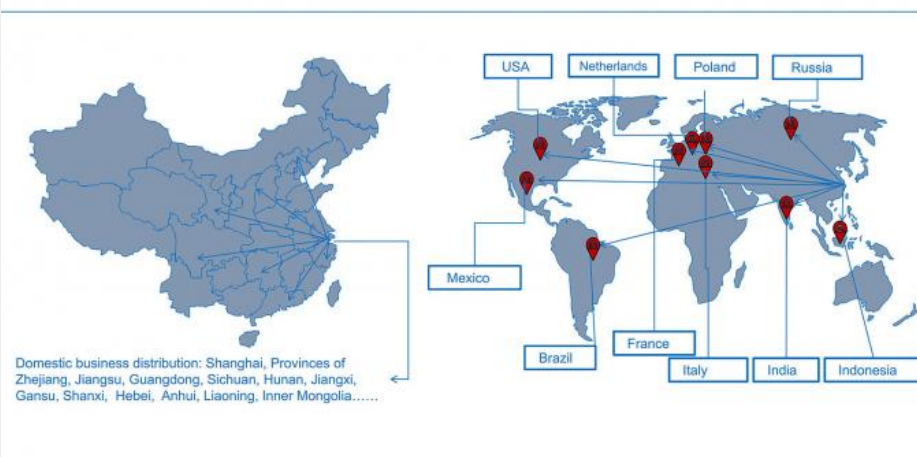

Base: Mechanical table construction for stability

Compatibility: Works with wide range of similar cosmetic products

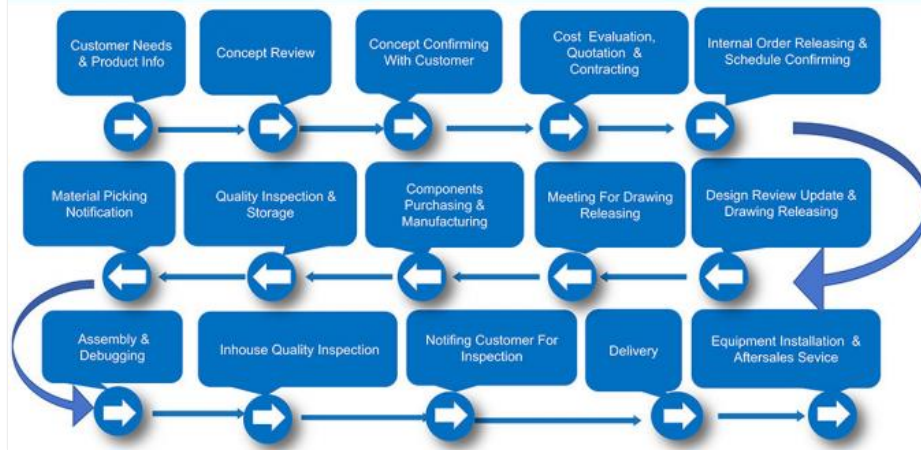

Results: Enhanced efficiency, quality control, and productivity

All non-standard machines are custom designed following detailed analysis of each client's volume requirements and quality goals. We maintain strict confidentiality throughout the process.

Business Global Service

We are committed to providing customers with high-quality, competitive products and services. A project cooperation process usually includes the following key steps.

Frequently Asked Questions

Q: Are you trading company or manufacturer?

A: We are a manufacturer with over 10 years of production and development experience.

Q: What are your major products?

A: We specialize in customized automatic machinery for production, including assembly lines, testing and packaging solutions. Our expertise extends to electric vehicle manufacturers with component-level lines for battery packs, thermal management systems, and steering components.

Q: How long is your delivery time?

A: Standard production cycle is 3 months. Final delivery date depends on product complexity and current production schedule. Contact us for specific timelines.

Q: How about your price?

A: We provide competitive pricing based on your specific requirements. Share your parts and we'll develop a suitable solution with optimal pricing.

Q: What is your terms of payment?

A: 40% deposit with 60% balance payment before delivery.

Q: What is the package for your machine?

A: Standard wooden case packaging for secure transportation.

Q: How long is the warranty?

A: One year free warranty with lifetime maintenance support.

Q: What partners do you work with?

A: We collaborate with customer-designated partners or can recommend our trusted technical partners as needed.
