

Automated Loading And Unloading And Labeling Equipment For Injection Molding Of Clip End Of ECG Lead Wires

Our Product Introduction

for more products please visit us on automation-assembly.com

Basic Information

- Place of Origin: Shanghai
- Brand Name: Quanstar
- Certification: ISO
- Packaging Details: wooden box
- Payment Terms: L/C,T/T

Product Specification

- Name: Automated Loading And Unloading And Labeling Equipment For Injection Molding Of The Clip End Of ECG Lead Wires
- Industry: Assembly And Packaging For The Medical Devices
- Type: Fully Automatic
- Control System: PLC
- Condition: New
- Warranty: One Year
- Highlight: Automated Labeling Equipment,
ECG lead wires labeling equipment,
Injection Molding Labeling Equipment

Product Description

This project's equipment consists of 9 workstations, incorporating technologies such as injection molding, visual inspection, labeling, and robotic grasping, aiming to enhance production efficiency, ensure product quality, and reduce labor costs.

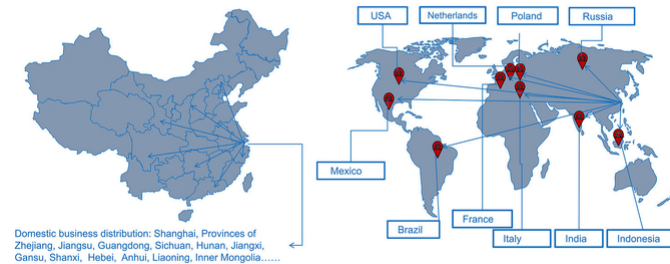

Advantages:

1. Adopt modular design, with tight connections between various components and easy maintenance.
2. Certified by UL standards, applicable to the production requirements of multiple specifications and models.
3. With in-mold implantation of wire harnesses, effectively reducing energy consumption and production costs.
4. Conduct detection on the implantation position and the accuracy of inserts after implantation to prevent damage to the molds.
5. Automatically output and attach five-color labels, and conduct visual inspection on the precision of the attachment positions.
6. With automatic detection, high precision and a low defective rate.

Our Product Introduction

Business Global Service

We are committed to providing customers with high-quality, competitive products and services. A project cooperation process usually includes the following key steps.

FAQ

1.Q: Are you trading company or manufacturer?

A: We are a manufacturer with over 10 years of production and development experience.

2.Q: What are your major products?

A: We are an assembly automation solution provider. We provide intelligent production lines for production. For example, we provide customized assembly line, testing and packaging solutions to several electric vehicle (EV) manufacturers, such as component-level lines for battery packs, thermal management systems, steering and so on.

3. Q: How long is your delivery time?

A: Usually 3 months is a production cycle, the specific delivery date should be arranged according to the product's complexity and real-time production schedule. Please contact us for the latest delivery date.

4.Q: How about your price?

A: Show us your parts and we will be glad to find solutions and provide a suitable scheme, and offer the most competitive price to you.

5.Q: What is your terms of payment ?

A: 40% deposit and 60% balance payment before delivery.

6.Q: What is the package for you machine?

A: We have standard wooden case package.

7.Q: How long is the warranty?

A: Our aftersale service is one year free warranty, and life-time maintenance guaranteed.

8.Q:What partners do you work with?

A: We can both work with customer's designated partners and propose other components partners at customer's request. Some of our technical partners as below:

□
