

Custom Automation Solution For Medical Injection Parts Loading And Unloading

Our Product Introduction

Basic Information

- Place of Origin: Shanghai
- Brand Name: Quanstar
- Certification: ISO 9001
- Minimum Order Quantity: 1
- Delivery Time: 90
- Payment Terms: T/T

Product Specification

- Name: Automatic Loading And Unloading Solution
- Automation: Robotic
- Industry: Medical
- Controller: PLC
- Cycle Time: Customized
- Function: Assembly And Packaging
- Highlight: **Medical Injection Parts Automation Solution, Custom Automation Solution Medical Parts Loading**

for more products please visit us on automation-assembly.com

Product Description

Custom Automation Solution for Medical Injection Parts loading and unloading

The machine has functions of assembly, online visual detection, labeling, robot picking, real-time monitoring, quality traceability, barcode recognition, component life monitoring, data storage, MES system and ERP system networking, parameter arbitrary formula, intelligent energy analysis and energy-saving management system, intelligent equipment service big data cloud platform, etc., including assembly, assembly, coding, riveting, instant, delay, cooling, delay recalibration, mechanical characteristics, on-off, pressure resistance, transfer printing, laser, snap/stop parts, packaging, palletizing, AGV logistics, shortage alarm and other processes.

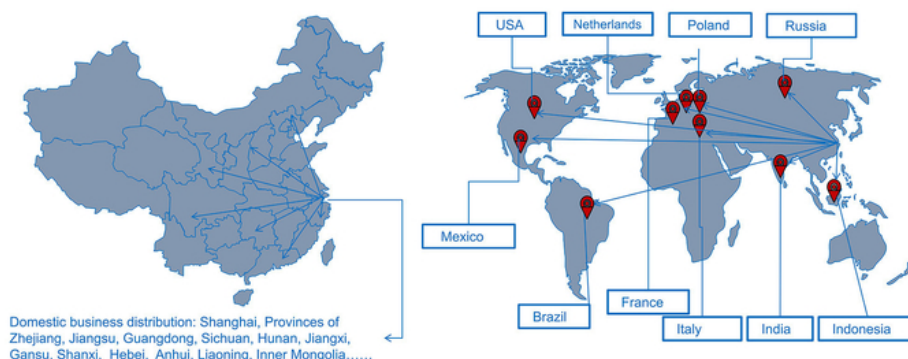

Quanstar Intelligent Controls (Shanghai) Co.,Ltd. specialized in creating custom automation solutions tailored to each client's need. We have a high reputation for providing custom automated manufacturing, processing, assembling and packing solutions for all industries including:

- Automotive
- Medical
- Healthcare
- Industrial
- Cosmetics
- Commodities

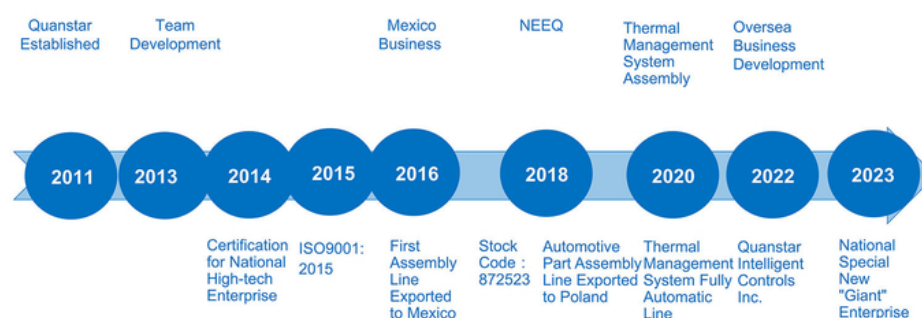

Core competencies of our manufacturing automation solutions:

- Resistance and laser welding
- Ultrasonic and RF Welding
- Industrial robot integration for flexible, multi-axis problems
- Material handling
- Power & free linear transfer systems
- Servo press
- Vision inspection
- Build to print
- Precision machining
- Lean cells
- Leak testing
- Traceability

Business Global Service

Development History

We are committed to providing customers with high-quality, competitive products and services. A project cooperation process usually includes the following key steps.
